

## THE ART OF THE SEA

Water has endless permutations. Never still, never the same, it is nature's most changeable element, able to shift shade and form, movement and mood in a matter of moments. The jewels of the 2015 *Blue Book* capture water's energetic and fluid soul, by turns shimmering and brilliant, moody and profound. The collection is a graphic exploration of the complex variations of color and line generated as water is transformed by tide and light, clouds and coastlines. We are connected to the sea, inexorably linked to this ultimate and ideal source of life and beauty. It runs through our veins and our dreams. Its waves beat out the rhythms of our hearts. And, with the jewels of the 2015 *Blue Book*, its brilliance and complexity can be worn on the skin.
